A published author, holder of many accreditations and qualifications, and first-hand experience in creating one of the country's biggest professional success stories, Steve Jones, founder of Skills for Business Training, is a well-known and highly respected leader in the professional training industry. His knowledge and expertise on creating effective strategies that boost employee performance, build business and, ultimately, increase revenue, is second to none. Passionate about pushing companies to become the best in their trade, Steve now dedicates himself to passing on his unique understanding of leadership, team building and motivation in business to help others create vision, motivational cultures, streamline teams and achieve measurable success.
